

Ready for World Class Delivery? Learn how to facilitate the Celemi Enterprise™ Business Simulation!

All Celemi solutions provide a truly effective way of learning, letting people explore and discover things for themselves. To support the learning process, a special approach to the facilitation of the seminar is required.

The objective of the Certification program is to learn about and understand how to act in this role – being an important part in building the learning environment; the participants, the simulation model and you...the facilitator of Celemi business simulations.

The Program consists of two parts:

- **Part one** - "You the facilitator", focuses on the facilitator role.
- **Part two** - handles the mechanics and rules of the business simulation.

In order to get a full understanding of the participants' perspectives, you need to attend a Celemi Enterprise™ seminar prior to participating in the certification program.
